

Safe 'n Easy: Efflorescence Remover

- 1. Product Description & Use:** Safe 'n Easy Efflorescence Remover is a newly developed product that replaces conventional mineral and organic acids for the removal of efflorescence. Safe 'n Easy Efflorescence Remover is a non-fuming, phosphate-free product that is a lot more effective than other acids when dissolving efflorescence salts and has none of the hazards that are inherent with commonly used acids. Safe 'n Easy Efflorescence Remover contains a special surfactant that provides detergency properties that will also help in the removal of oil/grease stains. Safe 'n Easy Efflorescence Remover does not contain any hydrofluoric acid, bleach, abrasives, caustic, mineral acids or petroleum distillates. It is formulated as a ready-to-use product.
- 2. Test Patch:** For best results test a solution of Safe 'n Easy Efflorescence Remover before general use.
- 3. Application & Spread Rate:** Protect polished and painted surfaces. Keep away from plants and vegetation. Use to Safe 'n Easy Efflorescence Remover to remove stubborn efflorescence from brick, block, stucco and other similar type surfaces. Use full strength, do not dilute. Apply solution onto a dry surface from the bottom up. Let solution stand for 10-20 minutes, depending on surface and contaminates, agitate and rinse thoroughly or power wash. For surfaces being sealed neutralize with a mild solution of Safe 'n Easy Architectural Cleaner. This product is also an effective rust and stain remover. This product has an average coverage of between 150/200 sq. feet per gallon.
- 4. Availability & Cost:** All Dumond products are available through a network of product distributors and paint stores. Call Dumond Chemicals in New Jersey at (609) 655-7700 for the nearest distributor. Cost will depend upon substrate and conditions to be cleaned.
