

Safe 'n Easy: Heavy Duty Restoration Cleaner

- Product Description & Use:** Safe 'n Easy Heavy Duty Restoration Cleaner is a biodegradable slightly acidic, heavy duty cleaner/restorer. It will remove a variety of contaminants from natural and man-made stone surfaces. This product does not contain bleach, abrasive, caustic, muriatic acid or petroleum distillates. It is formulated as a ready to use product and is generally used accordingly. However, it can be diluted for light cleaning and non-slip floor applications in place of hydrofluoric acid, a highly toxic and corrosive chemical.
- Features & Benefits:** Safe 'n Easy Heavy Duty Restoration Cleaner can be used to clean and restore stone, brick, masonry, unglazed ceramic, travertine, marble (unpolished or unglazed), granite, limestone, stucco, terrazzo, terra cotta and other similar type surfaces. It will remove stains, rust, chalking, efflorescence, atmospheric stains and dirt without etching, pitting or damaging the surface.
- Test Patch:** It is often impossible to know all of the conditions of the surface before cleaning. Before a project is started it is important that a small test area be done typical of the surface to be cleaned. It WILL damage and/or discolor glass, aluminum, polished and painted surfaces.
- Application & Spread Rate:** Use product at full strength, do not dilute. Apply solution by brush or spray from the bottom up. Let solution stand for approximately 15 minutes depending on surface and contaminants, agitate and rinse thoroughly.
- Availability & Cost:** All Dumond products are available through a network of product distributors and paint stores. Call Dumond Chemicals in New Jersey at (609) 655-7700 for the nearest distributor. Cost will depend upon substrate and conditions to be cleaned. This product has an average coverage of between 150/200 sq. feet per gallon.
- Health & Safety Requirements:** Corrosive liquid. Eye, skin and mucous membrane irritant. Contains fluorogens, which may be fatal if swallowed. Wear eye protection, rubber or latex gloves and chemical resistant footwear. KEEP OUT OF THE REACH OF CHILDREN. In case of contact with eyes, flush thoroughly with water for 15 minutes. Seek medical attention. If swallowed, drink ½ glasses of milk. Never give anything by mouth to an unconscious person. Do not induce vomiting. Call a physician immediately. In case of contact with skin, wash with soap and water. If irritation persists seek medical attention.
- Warranty:** Dumond Chemicals, Inc. warrants all of its products to be free from defects, and makes no other warranties with respect to its products, express or implied, including without limitation the implied warranties of MERCHANTABILITY OF FITNESS FOR PARTICULAR PURPOSE. Dumond Chemicals, Inc. liability shall be limited in all events to supplying sufficient products to re-treat the specific areas to which defective product have been applied. Dumond Chemicals, Inc. shall have no other liability, including liability for incidental, consequential or resultant damages whether due to breach of warranty or negligence. This warranty may not be modified or extended by representatives of Dumond Chemicals, Inc. or its distributors, and dealers.
