4. FIRST AID MEASURES

First Aid Measures

Inhalation
Remove to fresh air. If not breathing, give artificial respiration. Get medical attention if necessary.
Eye Contact
Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Get immediate medical advice/attention.

Ingestion
Never give anything by mouth to an unconscious person. Get medical attention if necessary. Do NOT induce vomiting. If conscious give 1 glass of water to dilute.

Skin Contact
Get medical attention immediately. Wash thoroughly with soap and water (15-30 minutes) until no traces of the chemical remain. Remove and wash contaminated clothing before reuse.

Most Important Symptoms and Effects, both Acute and Delayed

Symptoms
Mists and vapors cause irritation of the eyes, mucous membranes, and upper respiratory tract. Exposed individuals may experience eye tearing, redness, and discomfort. Contact may cause irritation and redness. May cause gastrointestinal irritation, nausea, diarrhea, and vomiting.

Indication of any Immediate Medical Attention and Special Treatment Needed

Note to Physicians
Treat symptomatically. Individuals with chronic respiratory or skin diseases may be at risk from exposure.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media
Alcohol resistant foam, carbon dioxide, or dry chemical.

Unsuitable Extinguishing Media
Water or foam may cause frothing.

Specific Hazards Arising from the Chemical
Decomposition may be hazardous. At elevated temperatures, containers may rupture. Cool containers exposed to flames with water until well after the fire is out.

Hazardous combustion products
Carbon oxides. Nitrogen oxides (NOx).

Protective Equipment and Precautions for Firefighters
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures

Personal Precautions
Evacuate personnel to safe areas. Use personal protective equipment as required.

Environmental Precautions
See Section 12 for additional ecological information. Do not allow into any sewer, on the ground or into any body of water.

Methods and Material for Containment and Cleaning Up

Methods for Containment
Prevent further leakage or spillage if safe to do so. Dike spill and collect into closable containers for disposal with an inert absorbent. Neutralize residue with dilute acetic acid.

Methods for Cleaning Up
Wash spill area with plenty of water. Place in appropriate containers for disposal. Spills and releases may have to be reported to Federal and/or local authorities. See section 15.

7. HANDLING AND STORAGE
Precautions for Safe Handling

Advice on Safe Handling
Use personal protective equipment as required. Avoid contact with skin, eyes or clothing. Avoid breathing vapors or mists. Wash thoroughly after handling before eating, drinking, smoking, or using toilet facilities. Since empty container retains residue, follow all label warnings even after container is empty. Do not eat, drink or smoke when using this product. Use only in well-ventilated areas.

Conditions for Safe Storage, Including any Incompatibilities

Storage Conditions
Keep containers tightly closed in a cool, well-ventilated place. Store away from incompatible materials. Store locked up.

Incompatible Materials
May react with some metals. Strong oxidizing agents. Strong acids.

Appropriate Engineering Controls

Engineering Controls
For operations where contact can occur, a safety shower and an eye wash facility should be available. Ensure adequate ventilation, especially in confined areas. Good general room ventilation (equivalent to outdoors) should be adequate under normal conditions.

Individual Protection Measures, such as Personal Protective Equipment

Eye/Face Protection
Chemical safety goggles/faceshield.

Skin and Body Protection
Wear impervious protective clothing, including boots, gloves, lab coat, apron or coveralls, as appropriate, to prevent skin contact. Viton or other impervious gloves are required.

Respiratory Protection
Ensure adequate ventilation, especially in confined areas. For spray application, a NIOSH approved organic vapor respirator with N95 particulate filter.

General Hygiene Considerations
Handle in accordance with good industrial hygiene and safety practice.
