

PEEL AWAY® After Strip

Tech Data Sheet

Product Description & Use: Peel Away® After Strip makes the final clean-up easy when using Peel Away® and Smart Strip™ paint removal products. This product prevents residue from clinging to wood, metal, masonry, fiberglass and most other substrates after stripping. Peel Away® After Strip is excellent to clean and polishes all marine surfaces.

Features & Benefits:

- Makes final clean-up easy when using **Dumond®** paint removal products
- Prevents residue from clinging to wood, metal, masonry, fiberglass and most other substrates after stripping
- Cleans and polishes all marine surfaces

Limitations: Peel Away® After Strip may damage or discolor some substrates. Always test Peel Away® After Strip in a small inconspicuous area before applying to your entire substrate.

Recommended Substrates: Peel Away® After Strip can be used on most substrates, however is not recommended for the following: **Drywall, EIFS, plywood and laminates, Plexiglass, some fiberglass and plastics.**

Regulatory Information: Peel Away® After Strip is VOC compliant with all national, state and local regulations.

How to use:

Hand scrape or scrub with a nylon brush as much residue as possible off the substrate. Spray on Peel Away® After Strip and agitate with either a nylon scrub brush or synthetic scuff pad. Limit your cleaning area to 40 sq. ft. (3.7 sq. m). Use a large sponge and clean water to remove the dissolved residues. No waiting necessary.

Peel Away® After Strip is not a paint remover. Use our Peel Away® or Smart Strip® Paint Removal Systems to remove all surface coatings first.

This product can also be used to remove thin layers of varnish and polyurethanes from wood surfaces. For heavier applications, be sure to use our **Smart Strip®** advanced paint remover followed by the **Peel Away® After Strip**.

Peel Away® After Strip is excellent for fiberglass surfaces.

Availability & Cost: **Dumond® Chemicals** products are available through a nationwide network of paint stores, hardware stores and safety supply distributors. For outlet nearest you please visit www.dumondchemicals.com once on the website type your zip code or postal code into the dealer locator to find addresses and phone numbers of your nearest dealer.

Health & Safety Requirements: Not for internal consumption. While **After Strip** is formulated to be safe for the user, surface and environment, proper safety procedures should be followed at all times when handling this product. Read the full label and MSDS for precautionary instructions before use.
