

Watch Dog All Purpose Remover

Tech Data Sheet

Product Description & Use: Watch Dog™ All Purpose Graffiti Remover is a water-based formulation which is non-toxic, biodegradable and environmentally safe. Watch Dog™ All Purpose Graffiti Remover is designed to simplify the graffiti spray paint removal process on delicate surfaces. In most cases, Watch Dog™ All Purpose Graffiti Remover will remove the graffiti and adhesives in less than a minute. Watch Dog™ All Purpose Graffiti Remover is available in a 22oz. trigger bottle.

Features & Benefits:

- Quickly removes graffiti from most delicate surfaces
- Apply, agitate and wipe/rinse clean – works in minutes
- Safe, environmentally friendly, water-based formulation
- Removes most markers, spray paints, inks and adhesives from various delicate substrates

Limitations: Not recommended for use on porous, previously stained or painted surfaces. Always do a test patch prior to full removal.

Test Patch: Always perform a small inconspicuous test area on each type of substrate and coating prior to full application. Testing before beginning any project is the best way to ensure product effectiveness. Test patches can determine the proper dwell time and thickness to apply the product for you specific application. Failure to do a test patch can result in need for more than one application, increasing labor and material costs.

Recommended Substrates: Recommended for use on cured impervious surfaces; such as filing cabinets, lockers, bathroom stalls etc. Watch Dog™ All Purpose Remover can also be used on non porous unpainted surfaces. Always do a test patch prior to full removal.

Regulatory Information: VOC compliance - Watch Dog™ All Purpose Remover meets national, state and local regulations.

Preparation: Make sure surface is clean, dry and free from any debris.

Surface and Air Temperatures: To avoid product from freezing and reducing effectiveness do not use below 35° degrees Fahrenheit. For best results, use product in temperatures above 50° degrees Fahrenheit and below 90° degrees Fahrenheit. Product effectiveness is increased in warmer temperatures.

Application & Spread Rate: Apply product liberally, at full strength using trigger spray bottle. Allow product to remain on surface for 1-2 min. or more based on your test patch results. Product may require some agitation with a nylon bristled brush or Scotch™ Brite pad. Re-Apply if necessary. **Watch Dog™ All Purpose Remover** provides an average spread rate of approximately 6-8 sq. ft. per. 22 ounces container; results may vary based on the substrate texture and porosity.

- **Spray Application:** Product is sold in a 22 oz. trigger spray bottle. To spray larger quantities use a pump up garden sprayer.

Removal & Clean Up: Rinse product from the surface with water and a rag, sponge or garden hose. The surface may need to be degreased with our **Safe n' Easy™ Oil and Grease Remover** if a residue is present after cleaning. Dispose of water and waste according to federal, state and local regulations.

Best Practices:

- Follow up with our **Safe n' Easy™ Oil and Grease Remover** or glass cleaner if residue is left over after use
- Re-application or agitation may be required depending on contaminates
